WORK EXPERIENCE

Alentheia Design Co.

Web Developer

June 2020 - Present

- Lead the development of client websites, ensuring high performance, security, and scalability.
- Worked closely with design teams to integrate user-centered design principles into development processes.
- Implemented and maintained web applications using modern frameworks and technologies.
- Optimized websites for search engines and improved overall site performance and accessibility.
- Provided ongoing technical support and updates for client websites, ensuring seamless operation.

Freelance Web Designer

August 2017 – June 2020

- Designed and developed custom websites for small businesses, focusing on responsive design and user experience.
- Collaborated with clients to create tailored web solutions, from concept to deployment.
- Managed all aspects of web design projects, including client communication, project timelines, and technical execution.
- Utilized HTML, CSS, JavaScript, and various content management systems to build and maintain websites.

EDUCATION

Columbus State University

Bachelor of Science in Computer Science

December 2019

PROJECT

Contidly | <https://contidly.com>

- Developed a CRM for web agencies with bulk client/lead import and advanced search/filtering.
- Integrated web crawling and Lighthouse audits for client websites to identify leads needing attention.
- Designed client 'pages' to manage contacts, attachments, crawled pages, and interaction tracking.
- Enhanced client engagement by providing actionable insights from audit results.

Pathlight | <https://pathlight.dev>

- Developed a web application for running Lighthouse audits and displaying performance results.
- Implemented user authentication and account management, allowing users to save and view their audit history.
- Optimized the platform for scalability, utilizing the PageSpeed Insights (PSI) API for efficient handling of multiple Lighthouse audits simultaneously.
- Designed an intuitive interface for easy access to audit results and performance insights.
